

Liberals Hold Convention in Hand Hills Constituency

Mr. Wm. Gibson, of Delia, Chosen to Represent Hand Hills Constituency in Next Provincial Election

Thurs. Monday afternoon a Liberal convention was held in the Olympia Theatre, Delia, which was largely attended. Delegates were present from Mounson, Mitchell, Carleton Place, Hanna, and various other parts of the Hand Hills constituency. Mr. W. H. Brown, who presided and gave a stirring address following the nomination of Mr. Wm. Gibson, to represent the Hand Hills constituency in the next provincial election.

The chair was taken by Mr. Robert Latley, of Hanna. At the onset of the meeting Mr. O. M. Murdoch, Mitchell, made a motion that the convention be postponed till a later date, and outlined the reasons for doing so. An amendment was proposed that the meeting carry on the afternoon and continuation was not a vote, and the amendment carried, 80 votes for and 15 against. During the discussion on Mr. Murdoch's motion, Mr. Brown was called to give an opinion on the matter. He said that each caucus would make its own decision as to whether they would hold a convention. It was entirely in their hands. Other contributions were not presented. The reason for this was to allow candidates to get into the field early, and the nominees go into other constituencies. Therefore it would be better for candidates to be appointed six months ahead. This was the general view, and the motion was left entirely in their own hands.

O. R. Murdoch rose and replied to Mr. Brown's remarks. He said that the convention should be postponed. Mr. Matt O'Reilly, of Mounson, rose and said that he was surprised the speaker (Mr. Murdoch) should say that. He said that he was a delegate from Mounson, and was surprised the speaker should say that. (Laughter.) The chairman asked for the wish of the meeting and the motion was carried. Mr. Brown then said that he was a delegate from Delia, and was surprised the speaker should say that. (Laughter.) The chairman asked for the wish of the meeting and the motion was carried. Mr. Brown then said that he was a delegate from Delia, and was surprised the speaker should say that. (Laughter.) The chairman asked for the wish of the meeting and the motion was carried.

Four candidates, therefore, were left in the field, as follows:—Mr. Wm. Gibson, R. Latley, O. M. Murdoch, and H. Sinclair. Mr. O. M. Murdoch was the last to be named, and was declared the successful candidate. He was then elected to represent the Hand Hills constituency in the next provincial Liberal election.

Mr. Matt O'Reilly, of Mounson, then said that he was a delegate from Mounson, and was surprised the speaker should say that. (Laughter.) The chairman asked for the wish of the meeting and the motion was carried. Mr. Brown then said that he was a delegate from Delia, and was surprised the speaker should say that. (Laughter.) The chairman asked for the wish of the meeting and the motion was carried.

Minutes of the M.D. Council of Lambton

The council met at Delia on Saturday, December 1st, at 2.15 p.m. All committees were present. Minutes of previous meeting were read, and on motion of Mr. Brown, were adopted.

Mr. Brown, the secretary, was authorized by the council to request the assistance of the Provincial Government in the form of a grant of \$250.00 to the council of Lambton. The council decided to accept the grant.

Dom. Experimental Station (WEEKLY 7000 LBS. LARD)

No incentive any more expected to turn out a finished product which is equal to the original raw materials and fuel power. Simultaneously the heavy producing theory, which is a very interesting theory, is a piece of mechanism that can make machine, cannot produce the maximum yield of milk unless it is provided with suitable raw materials and fuel, in the form of a well balanced ration and comfortable quarters.

For most successful results, the dairy ration must consist of a variety of materials, including roughage such as ensilage, alfalfa, sweet clover, timothy, or clover hay, in conjunction with the grain. At the Dominion Experimental Station, London, it has been found that best results are obtained when the ration consists of 10 pounds of grain and 10 pounds of roughage, with 10 pounds of hay or silage.
